IEEE

2023 Power of Associations Summit Award recipient

IEEE was chosen as a 2023 Power of Associations Summit Award recipient for IEEE DataPort, its online data platform that allows users to store, search and manage datasets across a broad scope of topics, encouraging collaboration and supporting open data initiatives. IEEE was one of six organizations to receive the highest honor presented by the American Society Executives (ASAE) to the association community.
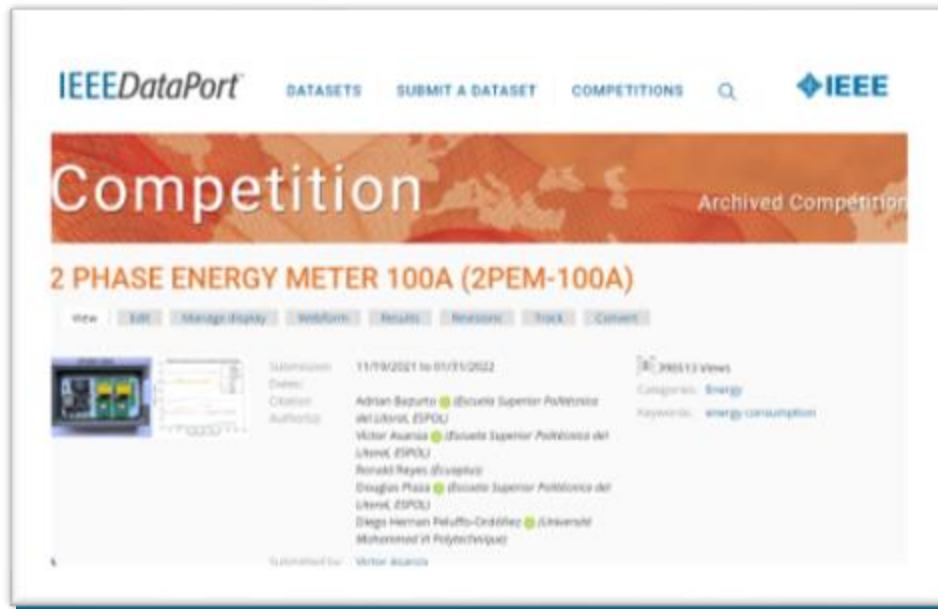

Gain New Customers with IEEE DataPort

- Reach up to 25,000 New Technical Experts daily

- Reinforce your marketing message with AI and Data Engineers, Data Scientists and Researchers on the cutting edge of new technologies shaping our world today

- Align your brand with deeply engaged IEEE members and customers working to create technologies to benefit humanity.

IEEE *DataPort* offers users access to over 6,500 valuable research datasets across 30+ popular categories including AI and Machine Learning. IEEE *DataPort* hosts global data competitions that attract 100,000s of users.
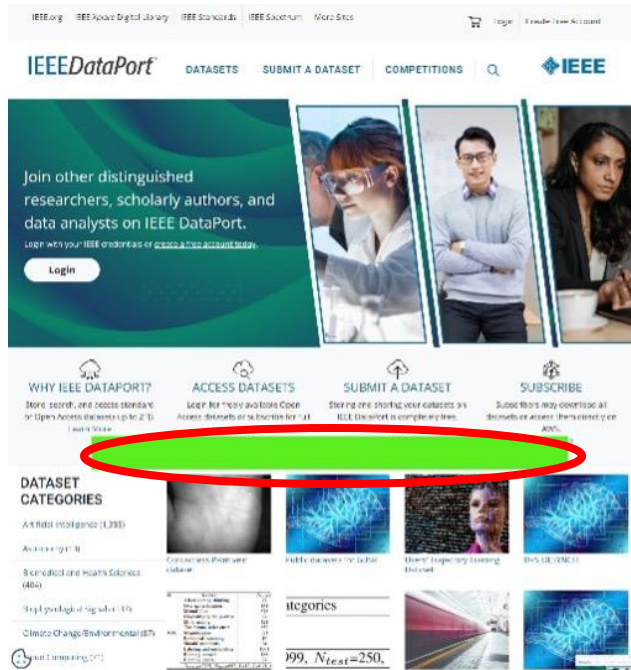

What is *DataPort?*

Nearly 6,600 Research Datasets

DataPort Competitions that attract 100,000s of technical experts

DataPort Advertising Pricing
